

Follow up

REACH Meeting with Dave, Scott, Rodger and Marcia - May 23, 2011

The purpose of this discussion was to attempt to define areas of CMMAP that would morph over to REACH.

**Items to stay with CSU:**

**School Visits** - Secure alternate funding

**Summer Interns** - Partially paid through REU, CMMAP still pays a portion of this program

Summer Interns:

\$51,000 from REU

\$28,500 from CMMAP - would need to secure additional funding

**Teacher workshop:**

20,000 Stipend

5200 Course Credit

3500 Meals

Total is \$28,700 - participant support/no indirects

Possible alternate funding RET - Research Experiences for Teachers.

[http://www.nsf.gov/funding/pgm\\_summ.jsp?pims\\_id=5736](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5736)

Preliminary searches indicate that this could be funded for the geosciences.

**Items for REACH:**

**LSOP** - Instructional Kits - mostly salary for Sheila

I am getting confirmation, but, it appears we can do a sub-award for this and retain Sheila as a CSU employee. This way CSU still takes care of all the necessary payroll - Jupe is confirming this, but, thinks this the best plan for a couple of years anyway.

**CGCC** - Move to REACH 2013

**Climate Sense** - Very Low Cost - Domain is currently \$180 per year, REACH domain is \$360 per year

**APPS** - With a portion of Rodger's time coming from CHECRA, development time and effort should be covered for the interim....until we make the big bucks on selling them. Apple makes this pretty easy - see link.

**Future Rental of Office Space:**

Scott suggested warehouse/office space in order to build a studio for our video productions:

As an example:

<http://www.loopnet.com/Listing/17179498/517-North-Link-Lane-Fort-Collins-CO/>

The monthly rent on this space would be \$585.
